Green, efficient & innovative Danube Transport

DATE & TIME 23 November 2017, 09:00-12:00

VENUE EP, Altiero Spinelli Building,
Room A3G2, 60 Rue Wiertz
1047 Brussels, Belgium

The Danube region needs smart, sustainable and inclusive growth based on an eco-efficient transport system. The Danube waterway can provide both, cost-effective and environmentally friendly logistics solutions which will improve the competitive situation of many industries reaching out to fast growing markets in the Black Sea, Caspian Basin and Middle East.

The 2017 Danube EP Transport Day shall raise the awareness of the members of the European Parliament, the European Commission as well as of invited policy makers towards the innovation needs and the planned innovation activities. Targeted innovation of the Danube IWT sector will steer to the modernization of this important sector and will result into a revitalised image of Danube transport among transport users, logistics service providers and the wider public.
